Code	Description	Links
200	List of tasks Media type application/json Controls Accept header. Example Value Schema	No links

Code	Description	Links
	<pre>[{ "id": 1, "title": "Learn REST API", "description": "Read lecture 16 and complete the practical assignment", "status": "in_progress", "priority": "high", "created_by": "Selector0073", "created_at": "2026-03-13T10:00:00Z" }]</pre>	

POST

/api/tasks

Create a new task

^

Creates a new task in the system.

Parameters

Try it out

No parameters

Request body required

application/json

Example Value

Schema

```
{
  "title": "Learn REST API",
  "description": "Read lecture 16",
  "status": "todo",
  "priority": "high",
  "created_by": "Selector0073"
}
```

Responses

Code	Description	Links
201	Task created	No links

Media type

application/json

Controls Accept header.

Code	Description	Links
	Example Value Schema <pre>{ "id": 1, "title": "Learn REST API", "description": "Read lecture 16 and complete the practical as signment", "status": "in_progress", "priority": "high", "created_by": "Selector0073", "created_at": "2026-03-13T10:00:00Z"} </pre>	
400	Invalid request data Media type application/json Example Value Schema <pre>{ "error": "Resource not found"} </pre>	No links

GET

/api/tasks/{id}

Get a task by ID

^

Returns a task by its unique identifier.

Parameters

Try it out

Name	Description
id * required integer (path)	Task identifier id

Responses

Code	Description	Links
200	Task found Media type	No links

Code	Description	Links
	application/json Controls Accept header. Example Value Schema <pre>{ "id": 1, "title": "Learn REST API", "description": "Read lecture 16 and complete the practical as signment", "status": "in_progress", "priority": "high", "created_by": "Selector0073", "created_at": "2026-03-13T10:00:00Z"}</pre>	
404	Task not found Media type application/json Example Value Schema <pre>{ "error": "Resource not found"}</pre>	No links

PUT /api/tasks/{id} Update a task ^

Updates an existing task by its identifier.

Parameters Try it out

Name	Description
id * required integer (path)	Task identifier id

Request body required application/json

Example Value Schema

```
{  "title": "Learn REST API",
```

```
"description": "Read lecture 16",
"status": "todo",
"priority": "high",
"created_by": "Selector0073"
}
```

Responses

Code	Description	Links
200	Task updated Media type application/json Controls Accept header. Example Value Schema <pre>{ "id": 1, "title": "Learn REST API", "description": "Read lecture 16 and complete the practical as signment", "status": "in_progress", "priority": "high", "created_by": "Selector0073", "created_at": "2026-03-13T10:00:00Z" }</pre>	No links
400	Invalid request data Media type application/json Example Value Schema <pre>{ "error": "Resource not found" }</pre>	No links
404	Task not found Media type application/json Example Value Schema <pre>{ "error": "Resource not found" }</pre>	No links

DELETE **/api/tasks/{id}** Delete a task

Deletes a task by its identifier.

Parameters[Try it out](#)

Name	Description
id * required integer (path)	Task identifier

Responses

Code	Description	Links
204	Task deleted	No links
404	Task not found	No links

Media type

Example Value Schema

```
{
  "error": "Resource not found"
}
```

categories Operations with categories**GET** **/api/categories** Get a list of categories

Returns a list of all task categories.

Parameters[Try it out](#)

No parameters

Responses

Code	Description	Links
200	List of categories Media type application/json Controls Accept header. Example Value Schema <pre>[{ "id": 1, "name": "Education", "description": "Tasks related to the learning process" }]</pre>	No links

POST **/api/categories** Create a new category

Creates a new task category.

Parameters

Try it out

No parameters

Request body **required**

application/json

Example Value Schema

```
{
  "name": "Education",
  "description": "Tasks related to the learning process"
}
```

Responses

Code	Description	Links
201	Category created Media type application/json Controls Accept header. Example Value Schema <pre>{ "id": 1, "name": "Education", "description": "Tasks related to the learning process"}</pre>	No links
400	Invalid request data Media type application/json Example Value Schema <pre>{ "error": "Resource not found"}</pre>	No links

GET

/api/categories/{id}/tasks Get tasks in a category

Returns the list of tasks that belong to the specified category.

Parameters[Try it out](#)
